

FOOD—NOT MEDICINE.

It all the treatments for consumption were put in book form it would make a pretty big library. But after all there has been little improvement over the old treatment of rest, fresh air, sunshine, plain, wholesome food and Scott's Emulsion. The latter supplies nourishment that cannot be secured in any other way, and after all, nourishment is what the consumptive needs first.

A gain in weight, however slight, is a long step toward improvement. If there is the least thing to build on Scott's Emulsion will enable the patient to make that gain. People have gained a pound in weight from a bottle of Scott's Emulsion—it's an exception when they don't.

We have seen Scott's Emulsion take hold of a patient and bring about a change for the better inside of a week. It always helps even the most stubborn cases.

Wilson-Range-Wilson

The Wilson is the natural product of science and mechanism. That it is unquestionably the best is a fact. No other Range has the down draft.

Every detail in this wonderful Range has been treated with such intelligence, both in the selection of material and the incorporation of scientific principles, that to-day it is absolutely unequaled by any other range in existence.

By its use the fumes and smoke which in other ranges rise and come in contact with food being cooked over an open fire are drawn down through the fire box and out through the flue.

The Wilson will burn hard coal, soft coal or wood with the best results, and less fuel is required than is the case with any other range. Satisfactory results are assured if you use a Wilson Range.

Menu. Thursday, Dec. 7, 1905. Puff Paste, Cream Rolls, Oyster Patties, Coffee Cake, Broiled Oysters.

Free. With each Wilson Range we will give absolutely free five pieces of Delft ware and a special booklet.
